Inexpensive**

No. 1

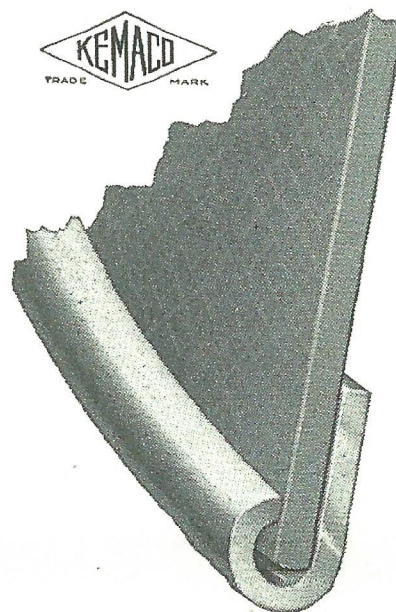

Seamless metal rings with rolled edges give stiffness and rigidity and are used on the large end of our high grade horns. See illustration No. 1.

## Ruggedness

We show in illustration No. 2 a section of ring and horn as described above.

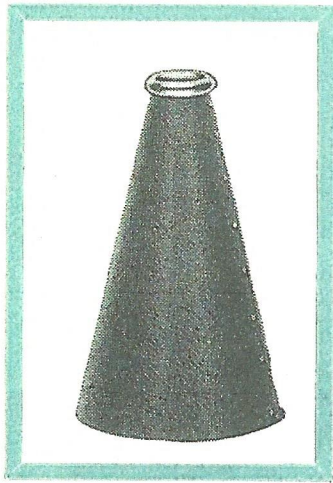

The very nature of the shape of these rings warrants their rigid durability.

We have recently enlarged the diameter of the roll on these rings whereby they grip a sufficient amount of fibre wall to insure the ring holding securely in place, thereby eliminating rivets or other fasteners.

No. 2

# KEMACO MEGAPHONES

## Mouthpieces

Megaphones are furnished with three different styled, conveniently shaped metal mouthpieces, all made seamless and attached to horns by crimping inner lip against fibre wall of horn.

## Finish

They are suitably finished consistent with the grade megaphone on which each style is used.

## Handles

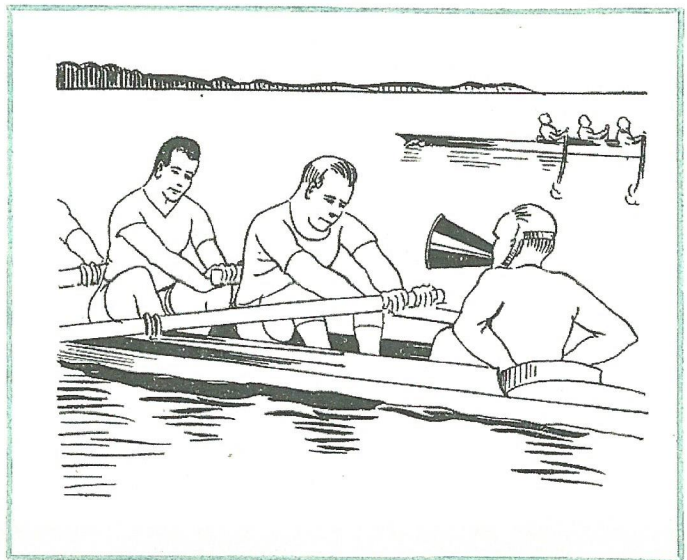

Handles are designed of metal formed into convenient shape and attached with two strong tubular rivets to horns. We can furnish flat leather handles in place of metal if desired.

## Special Orders

We are prepared to furnish any of our different grade megaphones finished in college colors, as Crimson, Blue, Green, Orange, etc., also with college letters on side of megaphone special to order, at slight additional charges.

Megaphones made special to order for radio loud speakers.

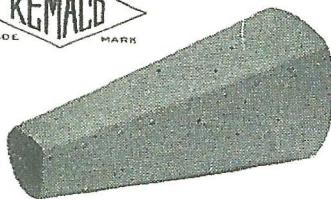

Write us your wants and let us send samples and quote you.

# KEMACO MEGAPHONES

## Types 040 to 43 Folding

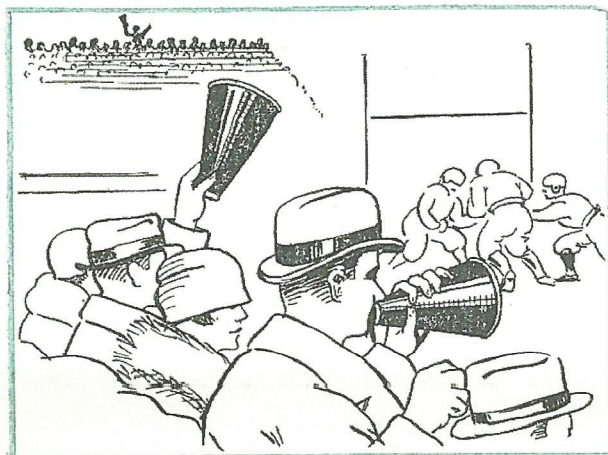

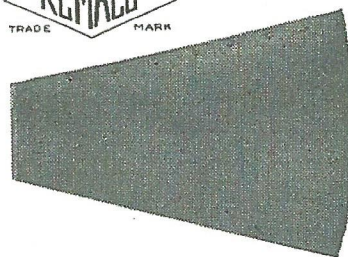

FOLD FLAT AND MAY BE CARRIED IN COAT POCKET.  
MAY BE USED AS A FAN IN HOT WEATHER.  
THE LATEST IDEA FOR MEGAPHONES.  
VERY CONVENIENT FOR ATHLETIC GAMES.

These handy horns are opened and held ready to use by slight pressure of hand as illustrated herewith.

The flat side when folded furnishes a suitable space for printed ads.

No metal mouthpieces are used with these horns. They have riveted seam and are specially hinged to allow folding and opening.

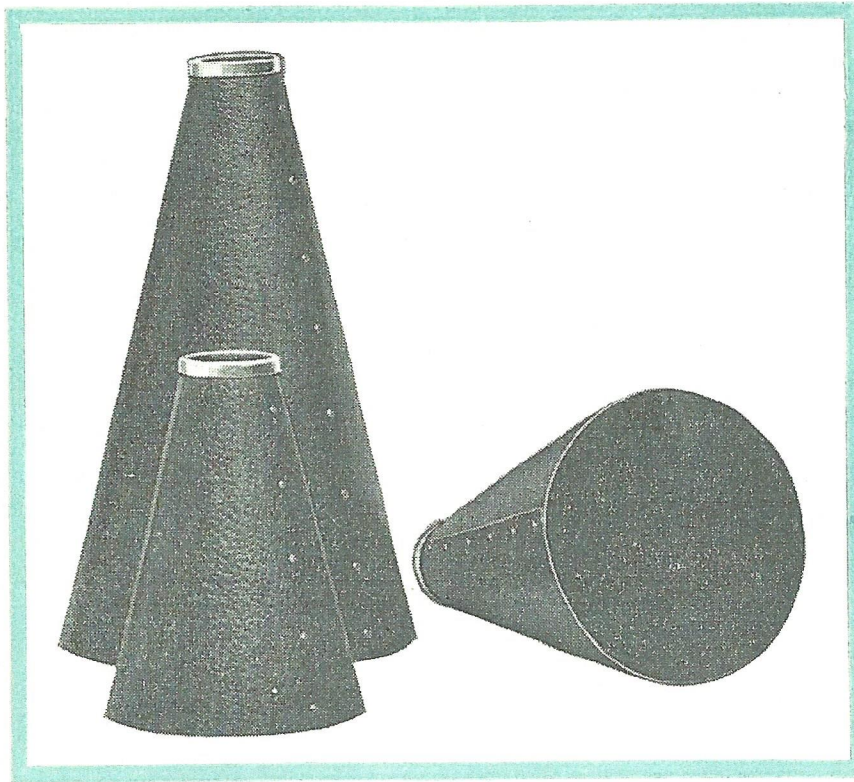

### SIX SIZES

Grade	Length	Dia. Large End
040	7"	4 $\frac{1}{4}$ "
0405	8"	4 $\frac{1}{2}$ "

## An Inexpensive Noisemaker

Constructed from suitable weight fibre, with white metal mouthpieces crimped on, and with riveted seams.

This popular horn is used in large quantities for school and college athletic games, political rallies, and on all noise making occasions when inexpensive megaphones are desired.

### FIVE SIZES

Grade	Length	Dia. Large End
050	7"	4 $\frac{3}{4}$ "
0505	8"	5 $\frac{1}{4}$ "

52	15"	7 $\frac{3}{4}$ "

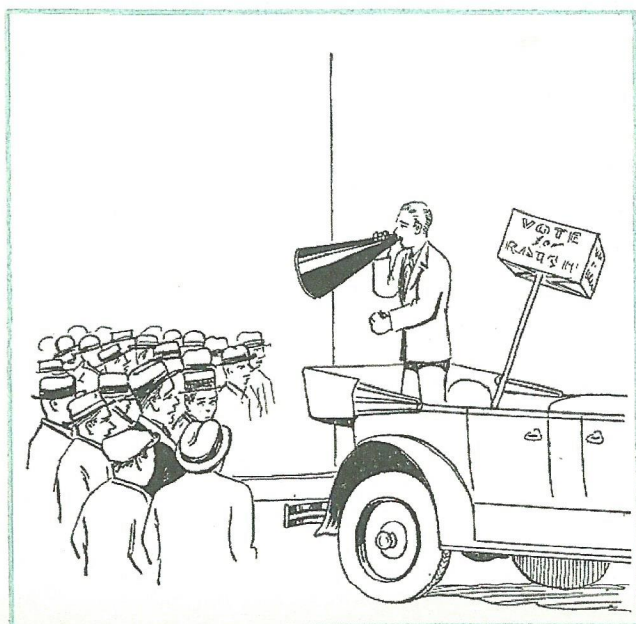

# KEMACO MEGAPHONES

## Types 060 to 64

## Nickel Plated Trimmings

This grade megaphone is also a popular model. Constructed from suitable fibre according to size, firmly riveted with nickel plated rivets, and fitted with large roll nickel plated and polished mouthpiece. The large shaped roll of this mouthpiece forms a knob, thereby preventing megaphone from easily slipping out of the hand when being used.

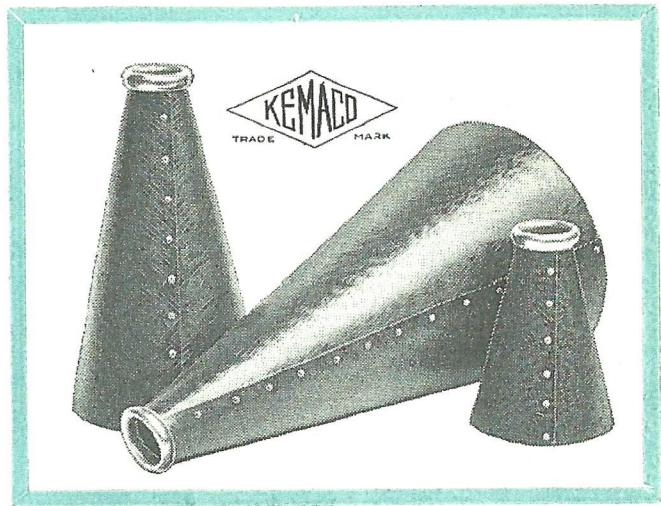

### SEVEN SIZES

Grade	Length	Dia. Large End
060	7"	4 $\frac{3}{4}$ "
0605	8"	5 $\frac{1}{4}$ "
60	9"	5 $\frac{3}{4}$ "

63	18"	9"
64	20"	10"

# KEMACO MEGAPHONES

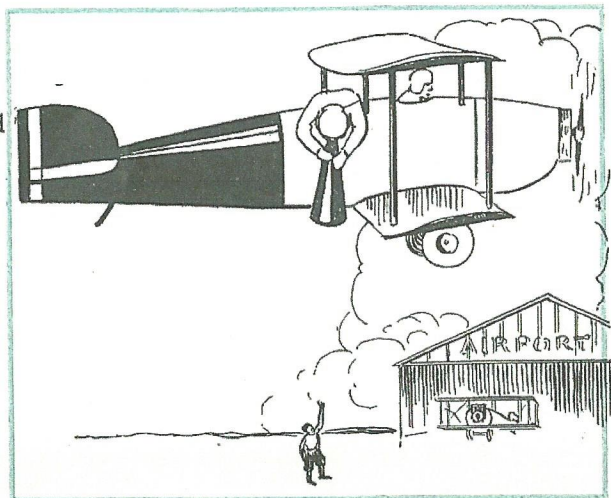

## Types 70 to 75 Thick Fibre

These megaphones are constructed from extra thick fibre, very strong and durable. Fitted with the large roll nickle plated and polished mouthpiece, they represent the best grade small size megaphone, without rings and handles, that we manufacture.

### SIX SIZES

Grade	Length	Dia. Large End
70	9"	5 $\frac{3}{4}$ "
71	12"	6 $\frac{1}{2}$ "

73	18"	9"
74	20"	10"
75	22"	11"

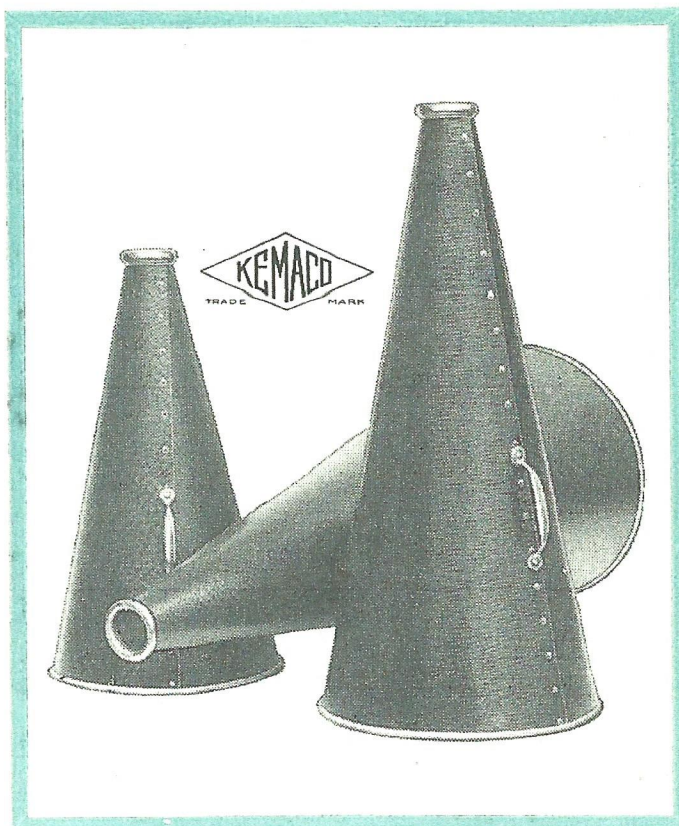

# KEMACO MEGAPHONES

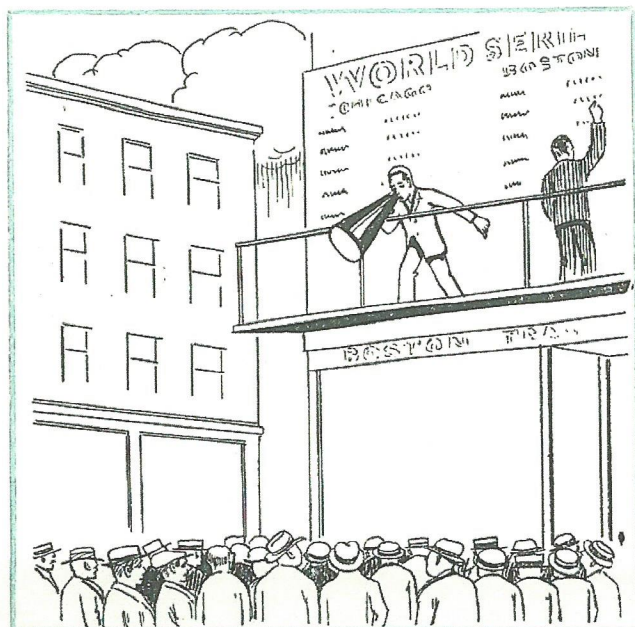

## Types 80 to 86

This style megaphone is constructed from suitable thick fibre, has large roll steel nickle plated mouthpiece, steel nickle plated raised handle, seamless rolled steel ring bright tinned finish.

A well-made and durable horn for the hardest usage and service.

Russia grain leather collapsible flat handles can be furnished in place of metal handles at same price if preferred.

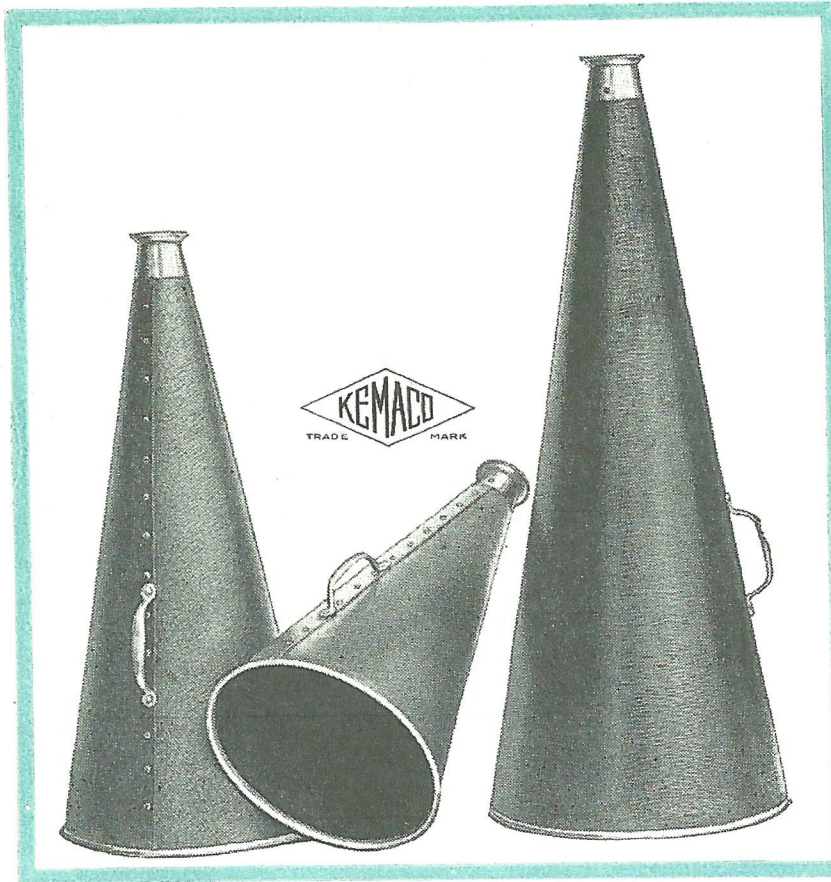

### SIX SIZES

**De Luxe  
Model**

## SIX SIZES

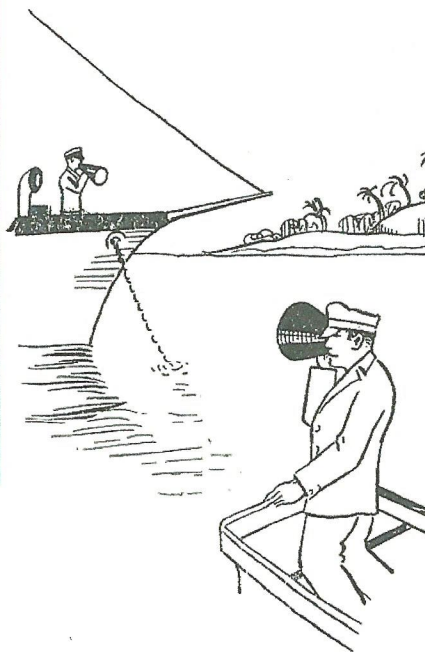

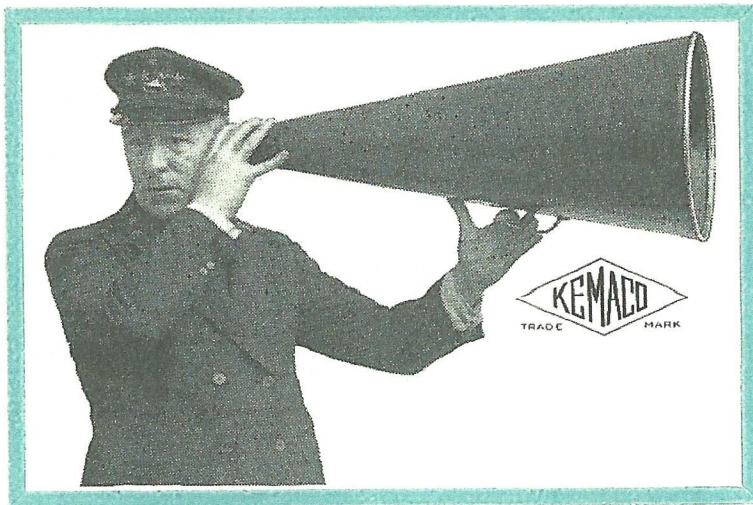

The finest and best megaphone on the market. Constructed from heavy fibre carefully riveted and formed. Are fitted with solid brass nickel plated and polished, two part mouthpiece of special shape to fit the lips when speaking, the lower half of mouthpiece extending down on outside tubular style, with inside flange of mouthpiece part tightly swedged against fibre wall.

Grade	Length	Dia. Large End
90	18"	9 $\frac{1}{2}$ "
92	22"	11"
93	24"	11"
94	30"	12 $\frac{1}{2}$ "
95	36"	14"
96	40"	14"

# KEMACO MEGAPHONES

## Types 090 to 96

Especially suitable for use on shipboard and at the seashore.

These megaphones have a solid brass raised nickle plated and polished handle, seamless rolled ring, firmly rolled onto wall of fibre at large end.

This ring is neat in appearance and gives strength and rigidity, resulting in a light weight but very durable horn.

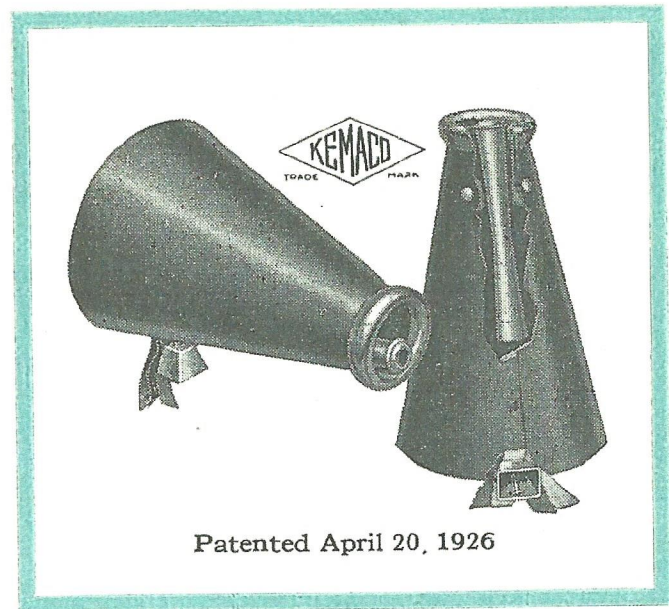

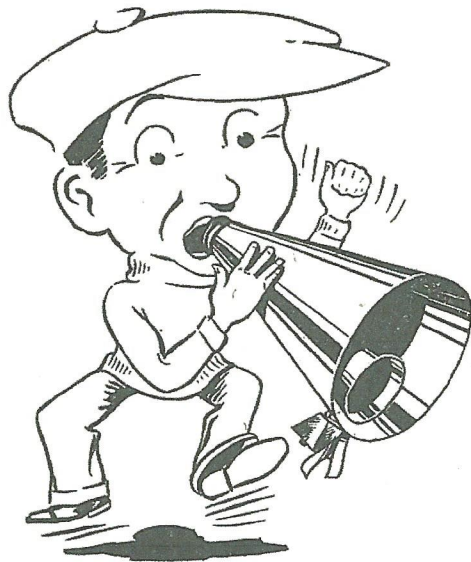

*(See preceding page)*

Made in six sizes.

## MEGA-JAZZ-PHONE TYPE 30

### Greatest Noisemaker of All

Megaphone-Fish Horn and Cow Bell combine to make this the greatest hit ever offered in a megaphone.

Mega-Jazz-Phones are used at track meets, professional and collegiate games, fairs, carnivals, picnics, banquets and wherever people gather.

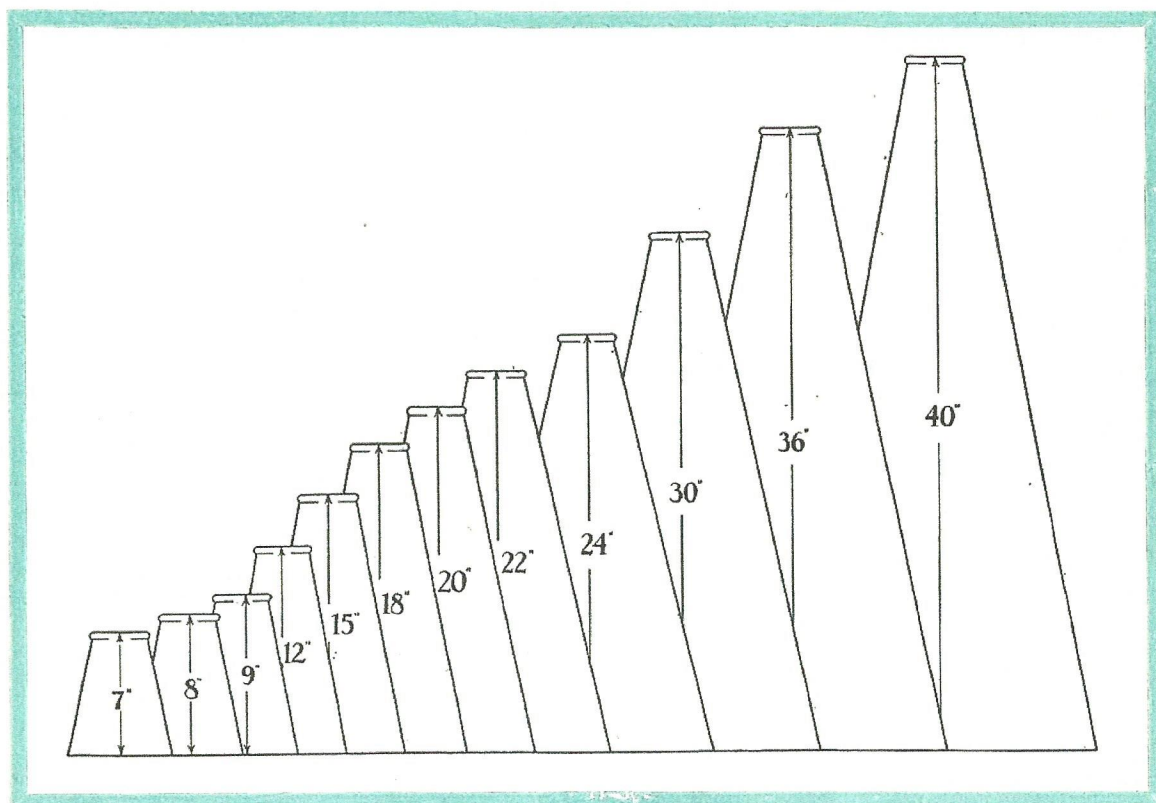

Mega-Jazz-Phones are built of lacquered fibre with metal mouthpiece, holding a substantial loud noise-making fish horn, concealed within the megaphone, so arranged as to be blown at megaphone mouthpiece. Attached to the end of megaphone, with colored felt ribbons, is a jangling cow bell which adds noise and merriment. Made in one size only, 8 inches long and  $5\frac{1}{4}$  inches diameter at large end. Finished in brilliant cardinal red.

### SPECIAL MEGA-JAZZ-PHONES

Sell Mega-Jazz-Phones in quantity by furnishing them in school or college colors. The minimum order is for 100. Body is heavily enameled in color, with letter in second color.

# KEMACO MEGAPHONES

The above diagram shows at a glance the different heights of megaphones made by us and described upon the preceding pages.

This wide variation of sizes makes it possible to select such an assortment as meets with each individual's requirements.

Kemaco Megaphones are everywhere recognized for their remarkable quality and assure satisfaction at all times.
